

Proper cable assembly is critical to realizing the full benefits of the cable and connector technology. From its broad portfolio of cables and connectors, PIC can provide assemblies for many applications including avionics systems, video and high speed data.

- **Certified Test Processes & Equipment**
- **Precision Phase-Matched Cable Sets**
- **Built and Tested to Customer Requirements**
- **Test Reports Included with Every Assembly**
- **Qualified Assembly Experts**
- **Complete Lot Traceability**
- **High Reliability in Harsh Environments**
- **Improved Supply Chain Efficiency**

CABLE ASSEMBLY SOLUTIONS

TRUST YOUR CABLE ASSEMBLIES TO PIC WIRE & CABLE[®]

For over 40 years, PIC Wire & Cable has been a global provider of electronic cables, cable connectors and cable assemblies for demanding military, corporate and commercial applications that include airplanes, helicopters, ground vehicles, rail transport and marine vessels. PIC cables, connectors and cable assemblies are widely specified for use in major aerospace and military systems throughout the world.

USB 2.0

**Ethernet
 High Speed Data**

**50 Ohm Coax
 75 Ohm Coax
 Triax**
